Dockets Management Branch
Rockville MD.

To whom it may concern:

I am against forced molting of hens.

The FDA must do more than put Bacteria warning labels on egg cartons and regulate egg refrigeration temperature

The FDA should prohibit forced molting because it has been scientifically shown to promote disease by destroying the starving hens immune system

The FDA has jurisdiction to ban farm practices such as forced molting that injure human health.

C 218

96P-0418 The FDA was petitioned to ban forced

motting in 1998. This should be granted.

Sincerely,

[illegible]

R
