Docket #'s: 8/11/99

98-N-1230 / 96P-0418 / 97P-0197

Dear Sirs:

We need better regulation of bacteria warning labels on eggs + of egg refrigeration temperatures. Better still:

There should be an end to forced molting of hens. It is cruel + erodes the immune systems of hens, which leads to disease. Diseased hens lead to contaminated eggs, which poison humans. Then we would need even more regulations for bacteria in eggs. The best solution is to <u>ban</u> <u>forced molting</u>.

The FDA was petitioned in 4/98 to ban forced molting. Please see that the petition is granted. Thanks.

Sincerely, Ruth H. Sorr
