Lyle D. Jaffe,

My name is Karl & im 11 from Ireland. I live on a little farm with lads of different types of Cocks, hens, Ducks, and Drakes, and they roam freely around the yard, happily and when I see the pictures of the poor thin little hens squashed into those little battery coges. When you force-molt these poor anti-free-range hens, It destroys their immune system & makes their eggs turn out very-bad. Please dont chop off thier beacks beause it takes thier tongue too. Every day is misery to these poor things. Just like the apes in the U.K. factories, sellotaped to the walls around the waist with needles in thier eye-balls. This is all PAIN + MISERY!

you think of it, squashed inside a little cage unable to move, no natural light forced to lay, force-molted, not properly fed, and your beak & tongue chopped off.

THINK OF THE PAIN + MISERY
