Ms. Jane Henney, M.D.
Commissioner of USFDA
5600 Fishers Lane Room 1471
Rockville, Maryland 20857

-7 AM 10:04

Dear Ms. Henney:

We are a group of consumers deeply concerned about the genetically modified organisms in our food supply.

We urge, at the very least, that you enact mandatory labeling of these GMOs in all foods.

We know that Canada and Europe have wisely banned the use of BGH to boost milk production. We understand that the 15 country European Union has enacted mandatory labeling for all GMOS.

Please, let us act quickly!

Thank you!
