Dear Commissioner Henney:

The consumption of added sugar has jumped 25 percent since 1984, squeezing healthy foods out of the diet. As a member of the Center for Science in the Public Interest (CSPI), I urge the FDA to establish a "Daily Reference Value" for added sugar of 40 grams and to require labels to disclose how much added sugar a food contains.

Thank you for you consideration of this request.

Sincerely yours,

Cecile C. Sharron
(Mrs Roy B.)
