The consumption of added sugar has jumped 25% since 1984 squeezing healthy foods out of the diet. 576 ABL food & drink cos. put too too much sugar in their products. As a member of the Center for Science in the Public Interest (CSPI), I urge the FDA to establish a "Daily Reference Value" for added sugar of 40 grams & to require ~~[illegible]~~ labels to disclose how much added sugar a food contains. Even the sugar free food & drink products are too too sweet.

Thank you for listening

Cordially yours
Mrs Dorothy F. Stauffer
