Attention : FDA Dockets Manager

Subject: FDA- Docket No. 98N-1265

I oppose the Draft Memorandum being proposed by the FDA to limit shipments of medications across state lines by formulary pharmacies.

As it is, patient/consumer choices are severely limited by insurance policies and review boards and oversight committees. If a patient and his or her doctor determine that a particular medication is best obtained (for formula, price, or other reason) from a formulary pharmacy, there should not be a state-defined arbitrary ban. **This is *medical-care-by-geography*!**

Please don't let pharmaceutical business interests further invade my rights.

Earnestly,

Susan Larson
