Dear Jane E Henney, M.D.,

I want my paper chlorine Free! I say this because I've recently been made aware that dioxin is the deadliest toxin known to humans and unfortunately, chlorine-using paper and pulp mills are the FDA source of dioxin contamination of waterways! I ask you to do what you can to establish an international treaty to phase out organo-pollutants like dioxin. I'm counting on you to be my voice.

'99 AUG 24 P12:16

Thank you, Jessica Landes (PA)
