Sept. 1, 1999

: We are exporters/promoters of organic food products. To facilitate our business, it is now necessary to know what American food products have been genetically altered. Please kindly provide us with a list of those companies/products so altered.

Further, we request that labeling be required for such products.

This knowledge is absolutely necessary to the health of the growing American organic foods distributors and exporters; and we are confident that the FDA will do all it can to assist us.

Thank you.

J. Israel,
PRES.
