Reference: Docket # 98N-1230
" 96P-0418
" 97P-0197

Ban cruelty to fowl! (hens)
Ban forced molting! (hens)

Ban the starvation and no water (thirst) of these beautiful fowl (hens).

Ban these greedy, cruel, horrible practices.

These cruelties result in abuse of hens and is a cause of deaths in humans.

The farms are reckless with our lives by these molting practices causing the hens' immune system to be destroyed inviting the salmonella poison to the hens' bodies, their precious eggs and us - you and me!

C 309

96P-0418

Ban forced molting of hens for health and safety reasons and just plain moral reasons. If it doesn't seem cruel then you starve for 14 days and no water!! How do you think you'd like it?
This is an urgent humane requirement! Maureen Grossi
