FDA,

I am writing regarding these 3 docket numbers 98N-1230 96P-0418 and 97P-0197

6823 '99 AUG 20 P1:18

Eggs make people sick alot of the time and one reason for this is the practice of forced molting which has been proven to cause the starving hens to get diseases which in turn causes people who eat their eggs to have a good chance of getting sick - I personally have gotten sick several times from eating eggs & therefore stopped eating them altogether. Factory farming is not only cruel but harms the consumer. The FDA has the power to stop forced molting & factory farming, please do so.

Sincerely,

C. Raymer
