'99 AUG -3 P4:52

Dear Dr. Henney,

I feel it is very important for the F.D.A to promptly approve claims filed for:

- saw palmetto and the symptoms of benign prostatic hyperplasia.
- psyllium husk seeds and the risk of heart disease.
- folic acid, Vitamins B-6 and B-12 and cardiovascular disease.
- and Vitamin E and the risk of cardiovascular disease.

It is a tragedy that there has been such a long delay in allowing the public honest access to these products. Certainly, needless suffering and damage has resulted. Please do everything in your power to right these wrongs.

Martha Cross
