Jane Henney, M.D.
Commissioner
Food & Drug Administration
5600 Fishers Lane, Room 1471
Rockville, Md. 20857.

'99 AUG -3 P1:56

At the age of 81 and trying to make it to 82 in September, and having a heart condition and a protate problem, I most certainly would be in favor of the F.D.A. to promptly approve claims filed for Saw Palmetto and the symptoms of benign prostatic hyperplasia; folic acid, vitamin B6 and B12 and cardiovascular disease; and vitamin E and the risk of cardiovascular disease.

Please do not put it approval any longer.

Thank You,
William J. Diessler
