Dear Dr. Henney,

It has come to my attention that there are claims filed and pending approval by the FDA. I urge you to expedite the approval of those claims filed for saw palmetto and the symptoms of benign prostatic hyperplasia; psyllium husk seeds and the risk of heart disease; folic acid, vitamin B6 and vitamin B12 and cardiovascular disease; and vitamin E and the risk of cardiovascular disease.

Many ordinary citizens are waiting for a chance to take charge preventing illnesses that the above approval will facilitate.

Sincerely,
K.E. Gibson
