Attn: Jane Henney MD

Dear Dr Henney:

Claims have been filed regarding natural supplements below. Proper describing of benefits should be approved immediately.

My experience:

Saw Palmetto - I use now; have benefitted
Psyllium husk seeds - Have not used
Folic Acid - I use now
Vitamin B6 - I use now
Vitamin B12 - I use now
Vitamin E - I use now

Using the above supplements, along with EDTA chelation, has enabled me to get off all prescriptions, including a calcium channel blocker. I am 72 years of age and now in excellent health.

Not only should the supplement manufacturers be allowed to describe the benefits of their products, the veil of secrecy should be lifted from EDTA.

Sincerely
E A Stewart
