Dear Commissioner Henney

2341 '99 SEP 14 A10:12

I am contacting you to express my great concern with the possibility that foods are being genetically altered and not being labeled as such at my local grocery stores.

I think a person deseves to choose whether or not to buy these kinds of food. I myself would not choose to do so.

Science isn't certain that these foods are safe for either short or long term use. I love my family and do not wish to take unnecessary chances with their health

Therefore, I would strongly urge you to take whatever steps are necessary to ensure that the following products are clearly labeled

1. Genetically engineered foods

92N-0139

C 5948

2. Products that contain genetically engineered foods.

I would appreciate hearing from you with whatever steps you can take to ensure that this happens. My health and my family's health is of prime concern to me.

Sincerely,

Debbie Urben
