Aug 15, 1999

Dear FDA:

I beg you to strongly regulate factory farming (i.e. concentration camp) practices which produce & promote diseases in their victims & which are transmitted to humans. So many members of my family have become ill because of inhumane treatment of hens, etc. We have become vegan because of the danger & because of the cruelty of "forced molting" laying hens.

(Corporate) "animal" "agrobusiness" is a scandal. The FDA has the responsibility & the authority to regulate practices which impact our health. Please go beyond political expediency & bureaucratic inertia & do what is right.

Harold Sclesky
