RE: Dockets
98N-1230
97P-0197
97P-0418

Please be advised that it is my opinion that the FDA must do more than put Bacteria warning labels on egg cartons and regulate egg refrigeration temperatures.

The FDA should prohibit the practice of forced molting because molting has been scientifically shown to provoke desease.

The FDA should Ban form practices such as forced molting that injures human health.

The FDA must ban the forced molting of laying hens

cruy

96P-0418

C364

because forced molting is a primary cause of infections & diseases in hens, eggs, and consumers of eggs. The cruelty & contamination are linked.

The FDA was petitioned in April 1998 to ban forced molting. This petition should be granted immediately.

Sincerely,

Donald Hein
