Jane Henney, Commissioner 2059 '99 SEP 9 A10:50 September 5, 1999
Food + Drug Administration
Rockville, MD.

Dear Ms. Henney,

Please prohibit the use of antibiotics in livestock feed if that/those antibiotics are used in human medicine.

I believe the government has a responsibility to its citizens to safeguard health, not endanger it.

Thank you for your concern - this action may help save YOUR life some day.

Yours truly,

Helen M. Beverungen
