1803 '99 SEP -9 A10:11

Jane Hanney M.D.

I am in favor of the F.D.A. promptly approving claims filed for saw palmetto, and the symptoms of benign prostatic hyperplasia, psyllium husk seeds, and the risk of heart disease, folic acid, vitamin B6, and B12 and vitamin E for the risk of cardiovascular disease.

My wife was diabetic and passed away nine years ago. If I had proven then what I know now about alternative medicine and vitamins & herbs, which the big drug companies and the F.D.A. keep off the market I do believe she could be here today, and nine years later most doctors are treating diabetics in the same manner.
