I am in strong support of the F.D.A. promptly approving claims filed for Saw palmetto and the symptoms of benign prostatic hyperplasia psyllium husk seeds and the risk of heart disease folic and vitamin B 6 and vitamin B 12 and cardiovascular disease and vitamin E and the risk of cardiovascular disease.

These supplements are of extreme importance for the citizens of our country. We should have the freedom of choosing and knowing what the supplements can do for our health.

Sincerely,
Mary Rae Pilliard
