Rockville, MD 20857

1298 '99 SEP -7 P1:46

Dear Commissioner:

As an advocate of Alternative Medicine, I believe the public should be given information concerning the benefits of nutritional supplements. Therefore, I'm in favor of the FDA to promptly approve the claims filed for saw palmetto and the following:

Symptoms of prostatic hyperplasia, psyllium husk seeds and the risk of heart disease, folic acid, Vitamins B6 & B12 and cardiovascular disease; and Vitamin E and the risk of cardiovascular disease.

I believe the proven claims of these and all other supplements should be permitted to be printed on the bottles and/or other packaging to permit the public to be better informed about the benefits of the supplements they wish to take.

C113

Sincerely,

Michael C Dilibert
