Dear Ms. Henney: 5630 '99 S 29 21:45

The consumption of added sugar in the American diet has jumped 25 percent since 1984, squeezing healthy foods out of the diet. As a member of the Center for Science in the Public Interest (CSPI), I urge the FDA to establish a "Daily Reference Value" for added sugar of 40 grams and to require labels to disclose how much added sugar a food contains. Thank you for your time.

Sincerely,
Amisha Sharma
