Sep-1-99

To the FDA in regard of force molting of hens;

Docket #'s 98N-1230
96P-0418
97P-0197

More must be done about Bacteria contamination than just warning labels.

FDA should prohibit the practice of forced molting because forced molting has been scientifically shown to promote disease by destroying the starving hens' immune systems.

Please use your jurisdiction to ban this practice that

96P-0418

C 479

injure human health.

Forced molting must be banned, because it is the primary cause of injectious diseases in hens, eggs and consumers of eggs.

Forced molting is extremely cruel and should be illegal in our country.

FDA was petition in April 1998 to ban forced molting, this petition should be granted immediately.

Looking forward to hear from you.

Sincerely

Vicky Barbee
