Sept. 1, 1999

I believe the FDA can do more to reduce egg borne disease.

1474 '99 SEP -8 A10:17

My comments are directed to these 3 docket numbers: 98N-1230; 96P-0418; + 97P-0197.

(1) more is needed than bacteria warning labels on egg cartons + regulations for refrigerator temperatures.

(2) STOP forced molting, which encourages disease + destroys the hen's immune system. Starving hens is cruel + unnecessary.

(3) Ban forced molting because the infectious diseases are tranferred to hens, eggs + those that eat them!

(4) In April, 1998, the FDA was petitioned to ban ~~(...)~~ forced molting. Please grant this right away!

THE CRUELTY + CONTAMINATION MUST BE STOPPED.
