Dear Dr Jane Henney:

I am writing you today to urge you & the FDA to ban human antibiotics in animal feeds. Presently, antibiotics are being overused both in human medicine and in animal feeds. The overuse of antibiotics in agriculture has led to serious antibiotic-resistance problems in foods (e.g. such as strains of Salmonella).
Please help ensure the safety of our children, their children, and their children's children by banning the overuse of antibiotics in our country.

Sincerely

Keith MacDonald
