Dear Ms Henney,

I'm writing for immediate stoppage of antibiotic use on livestock feed. This practice may endanger the use of anti-biotic use in humans. I do not want the animals I'm eating to be raised in crowded living conditions or to have poor hygiene. I would hope for the best for the condition of food we consume. Please stop this practice of antibiotics in animal feed. I only want to eat naturally healthy meat.

Sincerely,

Sarah Jewett
