Dr. Jane E. Henney, Commissioner
Food and Drug Administration
5600 Fishers Lane, HF-1
Rockville, MD 20857

Sept. 13, 1999

Dear Ms. Henney —

Please stop gambling with the human, plant and animal lives on this planet Earth! Vote against biotechnic usage in our foods. Insist on proper labels distinguishing the ingredients, no matter how minute for all foods, ie, catagories, tastes, & nutrition. Please help to save our seeds for tomorrow's or next year's crops of veggies & fruits.

Help to save the little guy, whether it's the farmer, "middle-man" or consumers. We all live on this planet and require purity to sustain health. Small steps today equal giant steps tomorrow.

We're very glad to hear that the Food and Drug Administration is living up to its mandate to protect public health and will provide consumers with the information we need about the food we eat.

P.S. We do vote!

Sincerely,

Christine A. Waites

C 6000

92N-0139

C'mon, give us a break!
We don't want to be human
guinea pigs. The common man
me - is not as ignorant as you
might perceive us to be.
Give us credit and start
voting for mandatory labeling,
so we at least have a choice.

SEP 23

God bless a free America!

James C. Waites
