A note from...

Sally Connelly

Dear Dr. Henney -

In a perfect world there would be no pesticides, insecticides, hormones nor antibiotics in our food, But alas, at least we can choose to buy organic. I want the same RIGHT not to choose engineered, genetically altered foods. I don't want to eat these foods nor feed them to my family. I demand the right to choose (oh yeah... this is America isn't it?) by being able to read the LABEL and refusing it. LABEL ALL engineered foods.

Signed, your average citizen
