Dear Dr. Henney:

I do not think we understand enough about the implications of genetically modified foods to be growing + selling them on such a large scale. If monarch butterflies are dying because of GM foods, how else are we messing up our ecosystem? I would like to stop buying all GM foods but cant do so without appropriate labeling. Please

92N-0139

C6104

Let me know if the FDA is doing anything to rectify this problem.

Thanks,

Marvel Moore
