4

Sept 29, 1999

Dear Commissioner F.D.A.,

As an American tax payer, citizen voter ect I would like the food I purchase to be labeled if it contains genetically engineered ingredients.

Is that to much to ask? What are you trying to hide?

I have read in Time Magazine Sept 13, 1999 that the scientist have found a I Q gene for mice whats next a genetically engineered community?

Thank you for your time!
