EXECUTIVE SECRETARIAT

Commissioner Henney:

I am outraged that the Food and Drug Administration and the biotechnology industry are preventing the labeling of genetically engineered foods. My family and I do not wish to consume any such food.

I would like to receive from you a list of genetically engineered foods which are now available to consumers. I also must protest that you do not allow the labeling of such foods.

Mrs. Lillian Winston

P.S. The local FDA Consumer Affairs Office does not have such a list. As a matter of fact, they seem to be completely uninformed on the matter. C6192
