Mr. Dan Glickman
Secretary of Agriculture
U.S. Dept. of Agriculture
14th & Independence Ave. SW
Washington, DC 20250

Dear Mr. Secretary,

I am writing to ask you to put an immediate moratorium on the planting of all genetically engineered crops. I'm also requesting that your agency stop approving all genetically altered foods unless there is sufficient labeling on all products.

I DO NOT WANT TO EAT GENETICALLY ENGINEERED FOOD!

I am being told these foods (those that have been genetically altered) are safe to consume, but that is what was said about DDT and other products approved by the FDA and USDA.

If the Monarch butterfly catastrophe is an early warning of what is to come, I want my food labeled!

Please write back to me and let me know if you intend to implement these regulations.

Sincerely,

Stacey L. Klaman
