Subject Label all GE foods now! Date 06-21-99 No.

Dear Dr. Flamm:

I write to urge you grant U.S. and global consumers to right to know about GE foods.

I demand that you force U.S. transnationals to clearly label all genetically engineered foods and to accept strict regulation for all GE organisms in international trade.

Don't buckle under pressure from such transnational behemoths as Monsanto. Do the right thing. Label and regulate GE foods.

Sincerely,

David Klein
