Having been a whole foods consumer since our son was diagnosed with asthma 17 years ago I feel very strongly the necessity to maintain a high quality food system.

Organic in the old, clean, high standards

Biodynamic " " " "

STOP tampering with Mother Nature – ~~Haven't we caused~~ enough problems (pollution, ~~allergies~~/hyperactivity in our children). We 'think' we know a faster/better way but we don't. WHEN are we going to wake up to this fact? ALLOW and SUPPORT Naturally the Natural process of animals/plants/earth. With deepest sincerity
