COPIES 6-5 '99 NOV 17 P1:36

July 16, 1999

Dear Mr. President,

I am very concerned that I am eating genetically engineered foods without being told that fact. I am writing you this letter to insist that legislation be passed into law that will require such foods to be labeled as such, regardless of whether the food is in its whole form or as an ingredient in processed foods.

Genetically engineered crops are not the same as those produced by typical hybridization. The EPA, FDA, and USDA are being negligent in protecting the rights of the American public in regards to genetically engineered foods. I am asking you to direct these agencies to protect the public interest by requiring

II

the labeling of these foods.

The USDA has even proposed that genetically engineered foods be included in the definition of ORGANIC! Organic foods are made by God, not in the laboratory of Dr. Frankenstein!

Please respond back to me and let me know if you intend to support legislation and take other necessary actions for labeling genetically engineered foods.

Sincerely,

David F. Price
