Please label ALL Genetically Engineered foods NOW —

11/9/99

0048 '99 NOV 30 P2:01

Dear Representative:

I am quite concerned that the F.D.A. still does not require labels or safety tests on Genetically Engineered foods. I'm taking my information from the Turning Point Project ad in the New York Times.

I dont imagine anyone there has time to read why such an idea is very unsettling for me so suffice it to say I count on the F.D.A. to provide me with the information to make informed choices between products that already reach a certain safety level. If the Turning Point Project ad is correct I'm currently not being given that respect.

Please, please start labeling Genetically Engineered foods. (GE)

In closing I'd like to say that I support the lawsuit asking for stronger safety testing + mandatory labeling of all GE foods (Alliance for Bio-Integrity v. Shalala, Docket # 98-1300)
