re. Food Labeling

Dear Dr. Henney,

Please protect your public by adopting labeling requirements for all genetically modified foods, for meat from animals treated with sex hormones, & for milk from cows treated with recombinant bovine growth hormones.

Until these products are properly identified we are being deprived of knowledge that will help us choose a healthy & stable future. We depend on you & your committee to help all U.S. citizens to regain & maintain the freedom to make informed choices. Please honor our faith in you & your support of a healthy America. Sincerely, Ramona Richards
