Nov. 24, '99

Dear Mr. Friedman,

I encourage you to obtain mandatory safety testing and labeling of all genetically engineered food.

0704 '99 DEC -6 A9:53

As a 70-year-old I have lived long enough to observe "beginings" and "endings". Caution is so important in order to avoid the "Gee, we didn't realize there was a problem" syndrome 20 or 30 years down the road.

Thank you.

Sincerely,

Margaret Bowman
