My dear Donna Shalala 12-13-99

I am writing about my concern about the harmful use of food irradiation which never should have been pass by FDA, "INSIAD FDA"

Again not for the good of me or the people. Must have been voted in by those goons, GOP I mean the Repub's Govmt is out of controll.

To me its another nail to ~~the~~ my coffin and should be stopped. Now

Now there are plans to elminate the requirmits of labling food + product that have been irradiated

I Want to Know The People Should know it is my Right to Reject it and not Buy Irradiated foods. Don't go along.

I m asking you to stop these plans
