Dear FDA - Rep: 11/23/99

6091 '99 NOV 30 P2:17

I want to see a moratorium on genetically engineered food.

I want to see all bioengineered food LABELLED in my grocery ~~food... fruits~~ & veggies.

This is NO JOKE.

(+) Our nation's health is at risk until we do what is right & inform the public of what they are ingesting. (+)

Until we know EXACTLY the level of safety of genetically engineered foods, we should know if we are buying it or not.

Believe me, this hasty letter represent a voice for thousands of people & mothers in the Bay Area.

C/03

99N-4282

Thanks, Callie Miller
