Downed Animals - Docket No. 98P-0151/CP1

7527 '00 NOV 30 PM 12:02

Prohibit the slaughter of downed animals.

Many reasons:

1. Increased risk of bacterial contamination, such as mad cow disease,
2. Their number is comparatively small and will cause no undue economic hardship.
3. Removing the market for downed animals will provide incentive for better care and handling.
4. IT IS SIMPLY INHUMAN.

Yours truly
Laurel Tinney
