SUBJECT: Epredrine

11913

I wanted to express concern over your proposal concerning ephedrine. I was taking one pill a day containing 24 milligrams. Just that much has brought on a series of TIA's (transient ischemic attacks, mini-strokes), where my lips, right arm/hand, left arm/hand have experienced temporary paralysis, and most recently (2 weeks ago) I had temporary loss of hearing. It has been 2 years since I took the herb Ma Huang.

My health; blood pressure, weight, life style etc has always been excellent.

Sincerely,

[redacted]
