## FORMULA 1

**Directions:** Simply blend or stir 2 tablespoons of Formula 1 drink mix with 8 fl. oz. of nonfat milk, water or your favorite beverage until smooth.

**For Optimum Nutritional Health:** It is recommended to replace one meal daily with a delicious Formula 1 shake.

**To Lose Weight:** It is recommended to replace two meals per day with a delicious Formula 1 shake and eat one well-balanced meal. Follow the guidelines in the Herbalife Thermojetics® Weight Control Program Guide.

**For Maximum Results:** Use this product in conjunction with other Herbalife products.

### Protein Value Scoring

Our exclusive Weight Control Protein Drink Mix contains a protein blend free of meat, wheat, yeast, milk lactoalbumin and whey. Our Protein Digestibility Corrected Amino Acid (PDCAA) Score is 1.0 which is the highest score possible. PDCAA is the U.S. Government's new reference standard for evaluating protein quality. Because of its higher protein quality, Formula 1 contributes more usable protein per measure than products which fail to meet this reference standard.
