RE: Docket No. 00P-1211/CP1

Dear Commissioner Henney,

I am writing in response to the official rulemaking docket (#00P-1211/CP1) demanding that the FDA develop a thorough pre-market & environmental testing & mandatory labeling for genetically engineered food.

We should know what food we are eating, especially if it has been genetically altered. Also, you should be testing this food for negative effects on humans before it goes to market!

Sincerely,

Brian Sharpe
