Vitamin D-Volume 2 #102 7/19/74

VOLUME 2

GRAS MONOGRAPH SERIES

VITAMIN D

(COPIES OF ARTICLES CITED IN MONOGRAPH SUMMARY)

prepared for

THE FOOD AND DRUG ADMINISTRATION
DEPARTMENT OF HEALTH, EDUCATION AND WELFARE

JULY 19, 1974

This publication was prepared under Contract Number FDA 72-100 with the Public Health Service, Food and Drug Administration, Department of Health, Education, and Welfare

prepared by

Tracer Jitco, Inc.

1 A British Pediatric Association Report. 1964
Infantile hypercalcemia, nutritional rickets and infantile scurvy in Great Britain
Brit. Med. J. 1:1559

2 A.M.A. Council on Foods and Nutrition. 1959
Vitamin Preparations on Dietary Supplements and as Therapeutic Agents
J.A.M.A. 163:41-45

3 Abadia, Benoit F. 1965
Histochemical study of the adrenal, intestinal and pulmonary substrate in hypervitaminosis D (Span.)
Rev. Clin. Esp. 97:159-164

4 Abadia, Benoit F. 1965
Renal alkaline phosphatase activity after administration of massive doses of vitamin D (histochemical study) (Span.)
Rev. Clin. Esp. 97:93-95

5 Abderhalden, R., and K.H. Flisaesser. 1946
Occurrence of fat-soluble vitamins (axerophthol, calciferol and tocopherol) in cerebrospinal fluid; behavior of hemoencephalic barrier in regard to these compounds
Z. Vitaminforsch. 17:317-325

6 Abdurakhmanov, M.K. 1969
Dinamika soderzhaniya vitam inov A, D, B-1, B-2, B-6, C v krovi i okskretsiya ikh s mochoi u beremennykh zhenshchin. (Dynamics of the levels of vitamins A, D, B-1, B-2, B-6, and C in blood and their urinary excretion in pregnant women)
Vopr. Okhr. Materin. Det. 14(5):91-92

7 Abdurakhmanov, M.K. 1971
Metabolism of vitamins B1, B2, B6, C, A and D in normal pregnancy and complicated by hypochromic anemia (Russ.)
Akush. Ginekol. (Mosk) 47:10-15

8 Abe, T. . 1971
Effect of vitamin D3 on mitochondrial membrane of rat liver
J. Vitaminol. (Kyoto) 17:185-189

9 Abeloff, A.J., and T.P. Sobel. 1932
Viosterol in experimental fibrous ostetis
Arch. Pathol. 14 471

10 Abrahamov, A. 1970
Extreme hypercalcemia probably due to oversensitivity to vitamin D in a case of idiopathic hypoparathyroidism (Heb.)
Harefuah 78:385-387

11 Abramson, G.L. 1947
Changes in vitamin C balance in rickets
Vopr. Pediatr. Okhr. Materin. Det. 15(3):26-30

12 Aararov, A.A., and K.R. Kzhumaniyazova. 1969
Effect of vitamins A, D, and P on the acid, peroxide, and osmotic resistance of erythrocytes
Vopr. Pitan. 28(1):82-83

13 Abrosimova, R.S. 1963
The optimum dose of ultraviolet irradiation of calves
Ispol'z. Ul'trafiolet. Tzluch. Zhivotnovod. Akad. Nauk SSSR, Inst. Biol. Fiz. 1963:97-106

14 Accoyer, P., and S. Sibaud. 1967
Constituents of algae in Vichy mineral waters (Fr.)
Ann. Inst. Hydrol. Climatol. 36(98-99):1-20

15 Achcenich, Rolf. 1936
Vitamin D content of cacao shells
Bielermanns Zentralbl. F. Tierernahr. 8:276-286

16 Ackermann, H. 1960
The biological determination of vitamin D (prophylactic X-ray test)
Nahrung 4:164-169

17 Ackermann, P.G., and G. Toro. 1953
Effect of added vitamin D on calcium balance in elderly males
J. Gerontol. 8(4):451-457

18 Ackert, James E., and L.A. Spindler. 1927
Vitamin D and resistance of chickens to parasitism
J. Parasitol. 14(2):133

19 Adachi, Atsuko, and Tadashi Kobayashi. 1970
Decomposition of vitamin D by the hydroperoxide formed from 2,6-di-tert-butyl-4-methylphenol during alkali saponification
J. Vitaminol. (Kyoto) 16(2):103-106

20 Adair, F.L., A.J. Dieckmann, J. Michel, F. Dunkle, S. Kraner, and F. Lorang. 1943
The effect of complementing the diet in pregnancy with calcium, phosphorus, iron and vitamins A and D
Am. J. Obstet. Gynecol. 46:116-121

21 Adam, A. 1927
Is the antirachitic vitamin of cod-liver oil an irradiated ergosterol?
Klin. Wochschr. 6:1289

22 Adam, A. 1950
Homogenized and D-vitaminized certified children's milk
Milchwissenschaft 5:283-296

23 Adam, A., and S. Krafczyk. 1953
The efficacy of vitamin D-fortified milk
Milchwissenschaft 8:376-379

24 Adamek, John M., Halifax, Nova Scotia, Canada. 1958
Behandlung von leukosis
Can. Pat. 558,134 issued Jun. 3, 1958

25 Adams, E.P. 1951
Reversible uremia with hypercalcemia due to intoxication
New Engl. J. Med. 244:590-592

26 Adams, Georgian, and E.V. McCollum. 1928
A method for the biological assay of cod-liver oil
J. Biol. Chem. 78:495-524

27 Adams, Thomas H., and Anthony W. Norman. 1970
Mechanism of action of calciferol. I. Basic parameters of vitamin D-mediated calcium transport
J. Biol. Chem. 245(17):4421-4431

28 Adamski, Rafal, and Jolanta Sawicka. 1970
Separation and determination of vitamin D3 present together with vitamin A in aqueous and oil solutions (Pol.)
Farm. Pol. 26(2):131-134

29 Addis, H. St. C.C., and P. D. Currie. 1950
Hypercalcamie während vitamin D-behandlung von rheumatoider arthritis
Brit. Med. J. 1950:877-879

30 Adolf Rosenberg, New York, N.Y., V. St. A. 1950
Vitaminhaltiges futtermittel
A. Pat. 2,501,409 issued Mar. 21, 1950

31 Aebi, H. 1958
Die D-vitamine. Bedarf und wirkungsweise
Beih. Vitaminforsch. 1958:94-95

32 Aebi, H. 1964
Vitamin D metabolism and dental caries (Ger.)
Bibl. "Nutr. Dieta" 5:82-99

33 Agapkin, I.N. 1963
Combined treatment of lupus tuberculosus patients with phtivazid, streptomycin and vitamin B-2 (Russ.)
Sov. Med. 26:123-126

34 Agapkin, I.N., and T.G. Plotitsyna. 1955
Vascular reactions in patients with tuberculous lupus vulgaris treated with vitamin D2
Vestn. Venerol. Dermatol. 1955(9):18-22

35 Agarwal, M.S. 1950
Vitamine und ihr Wert
Indian Med. Rec. 70:101-104

36 Agarwal, S.B., S.[illegible]S. Tootia, and K.L. Sharma. 1969
Further observations on external calcium and phosphorus balance studies in rickets
Indian Pediatr. 6(6):391-397

37 Agduhr, F. 1935
Ergosterol increases the prolific capacity of the experimental animals and normal sexual functions intensify their resisting power against the toxicity of the ergosterol
Z. Vitaminforsch. 50-66

38 Agduhr, E. 1936
Influence of some natural fats and their components on animal tissues. II. Influence of different components of cod-liver oil on certain organs. (Ger.)
Z. Vitaminforsch. 5: [illegible]7-37

39 Agduhr, Erik. 1933-1934
Studies on the influence of some natural fats and their components on animal tissue structures. I. The influence on some organic structures of different fatty substances, fats and fatty oils of vegetables and animals
Ups. Lakareforen. Forh. 39:307-394

●40 Agduhr, Erik. 1935
Ergosterol increases the prolific capacity of the experimental animals, and normal sexual functions intensify their resisting power against the toxicity of the ergosterol
Z. Vitaminforsch. 4(1):54-66

41 Agduhr, Erik. 1935
Studies on the influence of some natural fats and their components on animal tissue structures. II. The influence on some organic structures of different components of cod liver oil. With a chemical chapter by Gunnar Blix and Bo Vahlquist
Upsala Lakareforen. Forh. 40(3/4):183-387

42 Agnew, M.C., R.G. Agnew, and F.F. Tisdall. 1933
The production and prevention of dental caries
J. Pediat. 2 190

43 Agnew, M.C., R.G. Agnew, and F.F. Tisdall. 1933
Production and prevention (dietetic) of dental caries
J. Am. Dental Assoc. 20:193-212

44 Aguzzi, Alfredo, and Carlo Callerio. 1941
Vitamin D in Sicilian tunny-liver oil
Boll. Soc. Med. Chir. Pavia 55:925-954

45 Ahlert, G. . 1968
On changes of the hemoconcentration in the so-called progeria-like syndrome (Ger.)
Z. Alternsforsch. 21:177-178

46 Ait, William Y.W., and Lawrence G. Raisz. 1967
Restoration of parathyroid responsiveness in vitamin D-deficient rats by parental calcium or dietary lactose
J. Clin. Invest. 46(10):1572-1578

47 Aiquier, J., L. Asselin, M. Rogabe, and G. Silvestre de Sacy. 1930
Veranderungen der mineralischen zusammensetzung des knochengewebes bei der normalen, rachitischen und geheilten rachitischen ratte
Compt. Rend. Acad. Sci. 190:334-336

48 Ake Oscar Orson Granvall, Stockholm, Schweden. 1950
Vitaminisieren von lebensmitteln
N. Pat. 76,713 issued Apr. 17, 1950

49 Akopyan, Z.T. . 1970
Effect of vitamin D2 and of ergosterol peroxide on deamination of mono- and diamines in liver mitochondria and on the activity of highly purified preparations of mitochondrial monoamine oxidases
Vitaminforsch 40:497-504

50 Aksoy, Ayhan. 1970
Interrelation of dietary vitamin D3 with potassium, sodium, magnesium, zinc, and iron in young turkeys
Diss. Abstr. Int. B 30(7):3253

51 Aktieselskabet Ferrosan, Kopenhagen. 1961
Herstellung von trockenen, haltbaren vitamin-A- und -D-praparaten fur futtersittelzwecke
Dan. Pat. 91,535 issued Nov. 6, 1961

52 Albrecht, Gerd J. 1969
The influence of vitamin D3 on the activity of thyrocalcitonin in the thyroid glands of the rat (Ger.)
Hoppe-Seyler's Z. Physiol. Chem. 349(6):779-783

53 Albricht, Fuller, Allan M. Butler, and Esther Bloomberg. 1937
Gegen vitamin-D-therapie resistente rachitis
Am. J. Dis. Child. 54:529-547

54 Albright, F. 1938
Metabolic effects of A.T. 10 (dihydrotachysterol) compared with those of vitamin D and with those of parathyroid hormone
Trans. Assoc. Am. Physicians 53:221-226

55 Albright, F., and B.N. Sulkowitch. 1938
The effect of vitamin D on calcium and phosphorus metabolism; studies on four patients
J. Clin. Invest. 17(3):305-315

56 Albright, Fuller, Esther Bloomberg, Truman Drake, and Hirsh W. Sulkowitch. 1938
A comparison of the effects of A. T. 10 (dihydrotachysterol) and vitamin D on calcium and phosphorus metabolism in hypoparathyroidism
J. Clin. Invest. 17:317-329

57 Albright, Fuller, Hirsh W. Sulkowitch, and Esther Bloomberg. 1939
A comparison of the effects of vitamin D, dihydrotachysterol (A.T.10) and parathyroid extract on the disordered metabolism of rickets
J. Clin. Invest. 18:165-169

58 Alcozer, Giulio. 1953
Vitamins and creatinine metabolism. II. Changes of the creatine and phosphocreatine contents of the skeleton and heart muscles of guinea pigs after administration of vitamins A, D2, and K
Arch. "P. Maragliano" Patol. Clin. 8:381-389

59 Alekseenko, V.P. 1969
Effect of vitamin D2 on the development of lipoidosis of the aorta and coronary arteries in children (Russ.)
Arkh. Pat. 26:47-51

60 Alekseev, N.P. 1969
Vitamin D2 in the mineral metabolism of bulls fed with beet pulp
Sel skokhoz. Biol. 4(2) 189-193

61 Alfano, A., and G. Amati. 1950
Myelohematic picture in normal individuals after vitamin D2 shock
Haematologica 34:19-34

62 Alfano, Amedeo, and Guido Amati. 1949
Action of vitamin D2 on peripheral blood and on marrow in normal subjects
Boll. Soc. Ital. Biol. Sper. 25:1017-1019

63 Alibekov, S. and K.M. Khalilov. 1962
Successful treatment with vitamin D2 of 3 patients with scleroderma
Vestn. Derm. Venerol. 36:69-71

●64 Allen, Thelma, Ada V. MacLeod, and E. Gordon Young 1953
On the nutritional requirements of young children with particular reference to calcification
Can. J. Med. Sci. 31(6):447-461

65 Allende, R.P., [illegible] and J.H. Bennett. 1951
Vitamin D2 in the treatment of psoriasis
Arch. Dermatol. Syphil. 63:254-255

66 Allergri, Antonio. 1933
Valore vitaminico di alcuni formaggi italiani. (Vitamin values of some Italian cheeses)
Boll. Soc. Med.-Chir. Pavia 47(6):1015-1022

67 Almeda, Alberto Fontana. 1954
Condensed milk of corrected composition
Span. Pat. 217,450 issued Jan. 12, 1954

68 Almeda, Don Alberto Fontana. 1954
Milk free of animal fats
Span. Pat. 217,452 issued Jan. 12, 1954

69 Almorza Salas, J. 1949
Charpy Method (large doses of vitamin D2) in therapy of tuberculous lupus
Med. Espan. 19:390-394

70 Almquist, H.J. 1954
A fallacy in the analysis of nutritional-requirement data
Arch. Biochem. Biophys. 50:593

● 71 Altman, [illegible] and D.S. Dittmer. 1972
Biology Data Book, Edition II
FASEB, Bethesda vol. 1

72 Amaniera, G. and T. Lubach. 1948
Mechanism of action of shock doses of vitamin D2 in therapy of pulmonary tuberculosis? 12 cases
G. Clin. Med. 29:481-490

73 Amaniera, G., and A. Bersani. 1949
Behavior of plasma factors connected with coagulation of blood during massive vitamin D2 therapy of tuberculosis patients
Arch. Stud. Fisiopat. 13:57-62

The physiology and metabolism of vitamin D
Ergebn. Inn Med. Kinderheilkd. 11:206-263

2673 Hoevels, O., and U. Stephan. 1962
The disease picture of "idiopathic" hypercalcemia, chronic vitamin D poisoning (Ger.)
Ergeb. Inn. Med. Kinderheilkd. 18:116-195

2674 Hoff, Ferdinand, and Ernst Homann. 1930
Zur frage des einflusses von vitamin D und epithelkorperhormon auf den kalkhaushalt
Z. Ges. Exp. Med. 74(1/2):258-273

2675 Hoff, H. 1930
Poisoning by metallic salts during vitamin-D feeding
Med. Klin. 26:1560-1562

2676 Hoffler, D., A. Opitz, K. Schaefer, H. Knoop, O. Knuth, E. Quellhorst, H.V. Henning, and F. Scheler 1969
Die chronische hamodialyse. Ein erfahrungsbericht uber 4614 hamodialysen bei 59 patienten. (Chronic hemodialysis. Experience in 59 patients treated with 4614 hemodialyses)
Arch. Klin. Med. 216(4):324-354

2677 Hofmeier, K. 1964
Mineral metabolism and vitamin D. A contribution to rickets and dental caries prevention (Ger.)
Oeff. Gesundheitsdienst. 26:282-286

2678 Hofmeier, K., and F. Holtz. 1941
Effect of vitamin D3 concentrate from fish liver oil in children
Dtsch. Med. Wchnschr. 67:1237-1238

2679 Hofmeier, Kurt. 1940
Prevention of rickets
Arch. Kinderheilkd. 120:49-59

2680 Hofmeyer, Kurt. 1954
Enriching milk with vitamin D by a hydrosoluble compound of vitamin D and lactoalbumin
Lattante 24:106-111

2681 Hofnik, W. 1966
Attempted dynamic evaluation of skeletal calcification in the course of therapy of calssical rickets in infants (Pol.)
Pol. Tyg. Lek. 21:1142-1144

2682 Hogan, A.G., C.L. Shrewsbury, and H.L. Kempster. 1929
The effect of inadequate rations on the composition of the blood and of the bone of chicks
Mo. Agric. Exp. Sta., Res. Bull. 124:17 pp.

2683 Hohmann, W.J., and G.W. Beening. 1947
Vitamin D2? massive doses of therapy of lupus vulgaris
Med. Tijdschr. Geneeskd. 91 78-82

2684 Hohmann, W.J., and G.W. Beening. 1947
Vitamin D2 treatment of lupus vulgaris? high doses
Acta Derm.-Venereol. 27 207-215

2685 Holderer, Maurice. 1942
Bread with spent brewers' grain
Bull. Assoc. Chim. 59:716-720

2686 Holdsworth, E.S. 1965
Vitamin D3 and calcium absorption in the chick
Biochem. J. 96:475-483

2687 Holick, M.F., and H.F. DeLuca. 1971
A new chromatographic system for vitamin D3 and its metabolites: Resolution of a new vitamin D3 metabolite
J. Lipid Res. 12:460-465

● 2688 Holick, M.F., Z.J. Semler, H.K. Schnoes and H.F. De Luca. 1973
1-alpha-hydroxy derivative of vitamin D3: A highly potent analog of 1-alpha, 25-dihydroxyvitamin D3.
Science 180: 190-191

● 2689 Holick, M.F., H.F. De Luca, F.M. Kasten and M.B. Koryck. 1973
Isotachysterol 3 and 25-hydroxy-isotachysterol 3: Analogs of 1,25-dihydroxy- vitamin D3
Science 180: 964-966

2690 Holick, M.F., H.F. Deluca, and I.V. Avioli. 1972
Isolation and identification of 25-hydroxycholecalciferol from human plasma
Arch. Intern. Med. 129:56-61

● 2691 Holick, M.F., H.K. Schnoes, and H.F. Deluca. 1971
Identification of 1,25-dihydroxycholecalciferol, a form of vitamin D3 metabolically active in the intestine
Proc. Na l. Acad. Sci. USA 68:803-804

2692 Holick, M.F., H.K. Schnoes, H.F. Deluca, M.M. Gray, T.T. Boyle, and T. Suda. 1972
Isolation and identification of 24,25-dihydroxycholecalciferol, a metabolite of vitamin D3 made in the kidney
Biochemistry 11:4251-4255

● 2693 Holick, M.F., H.K. Schnoes, H.F. Deluca, T. Suda, and R.J. Cousins. 1971
Isolation and identification of 1,25-dihydroxycholecalciferol. A metabolite of vitamin D active in intestine
Biochemistry 10:2799-2804

2694 Holick, M.F., M. Garabedian, and H.F. Deluca. 1972
1,25-Dihydroxycholecalciferol: Metabolite of vitamin D3 active on bone in anephric rats
Science 176:1146-1147

2695 Holick, M.F., M. Garabedian, and H.F. Deluca. 1972
5,6-Trans isomers of cholecalciferol and 25-hydroxycholecalciferol. Substitutes for 1,25-dihydroxycholecalciferol in anephric animals
Biochemistry 11:2715-2719

2696 Holick M.F., M. Garabedian, and H.F. Deluca. 1972
5,6-Trans-25-Hydroxycholecalciferol: Vitamin D analo effective on intestine of anephric rats
Science 176:1247-1248

2697 Hollan, B.K., and W.C. Winder. 1951
Preparation of modified skim milk
Milk Dealer 40(11):43, 92-95

2698 Hollander, D. . 1971
Role of the duodenum in vitamin D3 absorption in man
Am. J. Dig. Dis. 16:145-149

2699 Holm, George P. 1928
Vitamins A, D and E and the oxidation of fats and oils
Science 67:424-425

2700 Holm, K. 1934
Experimentelle untersuchungen uber die beziehungen der lipolyse im blute zu den abwehrreaktionen des tierischen organismus unter verschiedenartiger vitaminzufuhr
Z. Immunitatsforsch. Exp. Ther. 82:479-494
