July 15, 2000

Dear Dr. Henney -

We're among the millions of Americans who are very concerned about the growing resistance to antibiotics, which, to a great extent, is caused by the needless feeding of antibiotics to food animals to increase their growth.

Please ban the use of antibiotics as livestock growth promoters. Other countries have started banning antibiotics in livestock food; we should, too.

Thank you.

Sincerely,

Mr + Mrs J. L. Denison
