Jane Henney, M.D
Commissioner, FDA
5600 Fishers Lane, #1471
Rockville, MD 20857

Dear Commissioner Henney:

I am concerned that the use of antibiotics to promote growth in chickens, pigs, cattle, etc is leading to resistant strains of organisms that produce disease in humans. I urge the FDA to ban this usage — immediately.

For better health of humans —

Yours truly,
Leona W. Greenhill
