Dr Jane Henney
Commissioner, Food & Drug Administration
5400 Fishers Lane, Room 1471
Rockville, MD 20857

Dear Dr Henney -

It is very disturbing to know that such an overuse of antibiotic drugs are being used to promote livestock growth. Our families will be so affected as to be resistant should they become ill.

This message is to urge the FDA to follow the lead of the European Union which has banned all growth-promoting uses of antibiotics which are also used in human medicines. The United States always seems late in their decisions on health as money seems to speak louder -

Thank you for your concern -

Sincerely -

Pat Sells
