Donna Shalala
Sec, HHS

Dear Secretary Shalala

AUG 15 P2:31

I wish to tell you I am upset over the possibility of cutting back the labeling of Irradiated food.

Please defend the consumer's right to know,

I think that its my right to know if the food we eat has been treated with radiation, and that all food irradiated be clearly lubeled so we can tell which is and which is not.

Thank You
Zola Cranford
